INTRODUCTION

SCIENCE FICTION BOOK REVIEW INDEX is an annual publication designed to identify and provide bibliographic access to science fiction and fantasy book reviews, and to other books of potential interest to students and readers of science fiction and fantasy. To achieve that goal, most of the commercial science fiction and fantasy magazines are indexed comprehensively. The few exceptions are primarily the exclusively reprint magazines which do not carry book reviews. In addition, certain amateur publications (fanzines) are comprehensively indexed for science fiction and fantasy book reviews. Choice of fanzines for inclusion is based on such factors as quality of reviewing and availability of the fanzine. Finally, a number of general magazines and library-oriented magazines are indexed selectively. In this context, "selectively" indicates that all science fiction and related reviews are from each issue of the magazine are cited. Since not all general and library-oriented magazines could be covered, titles were chosen primarily for high density of reviews per issue, or because the quality of the reviews was particularly high. In all categories, the editor will welcome suggestions for additional magazine titles to be indexed. A directory of magazines regularly indexed is provided in each volume. Reviews from magazines other than those listed in the directory are sometimes included. Such items are cited as they are found to make them accessible to the user, even though the magazines are not regularly covered.

SCIENCE FICTION BOOK REVIEW INDEX covers all levels of books, from children's fantasy through technical books, which were reviewed in the source journals. History and criticism, bibliography, and reference works on science fiction and fantasy are indexed in **SCIENCE FICTION BOOK REVIEW INDEX**. Reviews of this type of material are cited wherever found, even though the magazine may not be regularly covered. Technical books and popularized science books are sometimes cited, if, in the opinion of the editor, the books are of potential interest to index users.

SCIENCE FICTION BOOK REVIEW INDEX is divided into two sections. The first section is an alphabetical listing by author. Multiple titles by a single author are alphabetized by book title following the author's name. Author's names are most frequently cited as they were given in the reviewing source; few pseudonym cross-references are provided in annual volumes. In the case of obvious errors, a correction has been made, with the correction verified through some reliable source. Citations in the author section consist of the following items, which appear in the citation in the order listed: author; title and subtitle; publisher; source journal; volume number and issue number, or whole number; pagination of review; date of review; reviewer (if identified). Full bibliographic data on the books is not provided in the annual volumes of **SCIENCE FICTION BOOK REVIEW INDEX**; this data will be added in the cumulated volumes published by Gale Research.

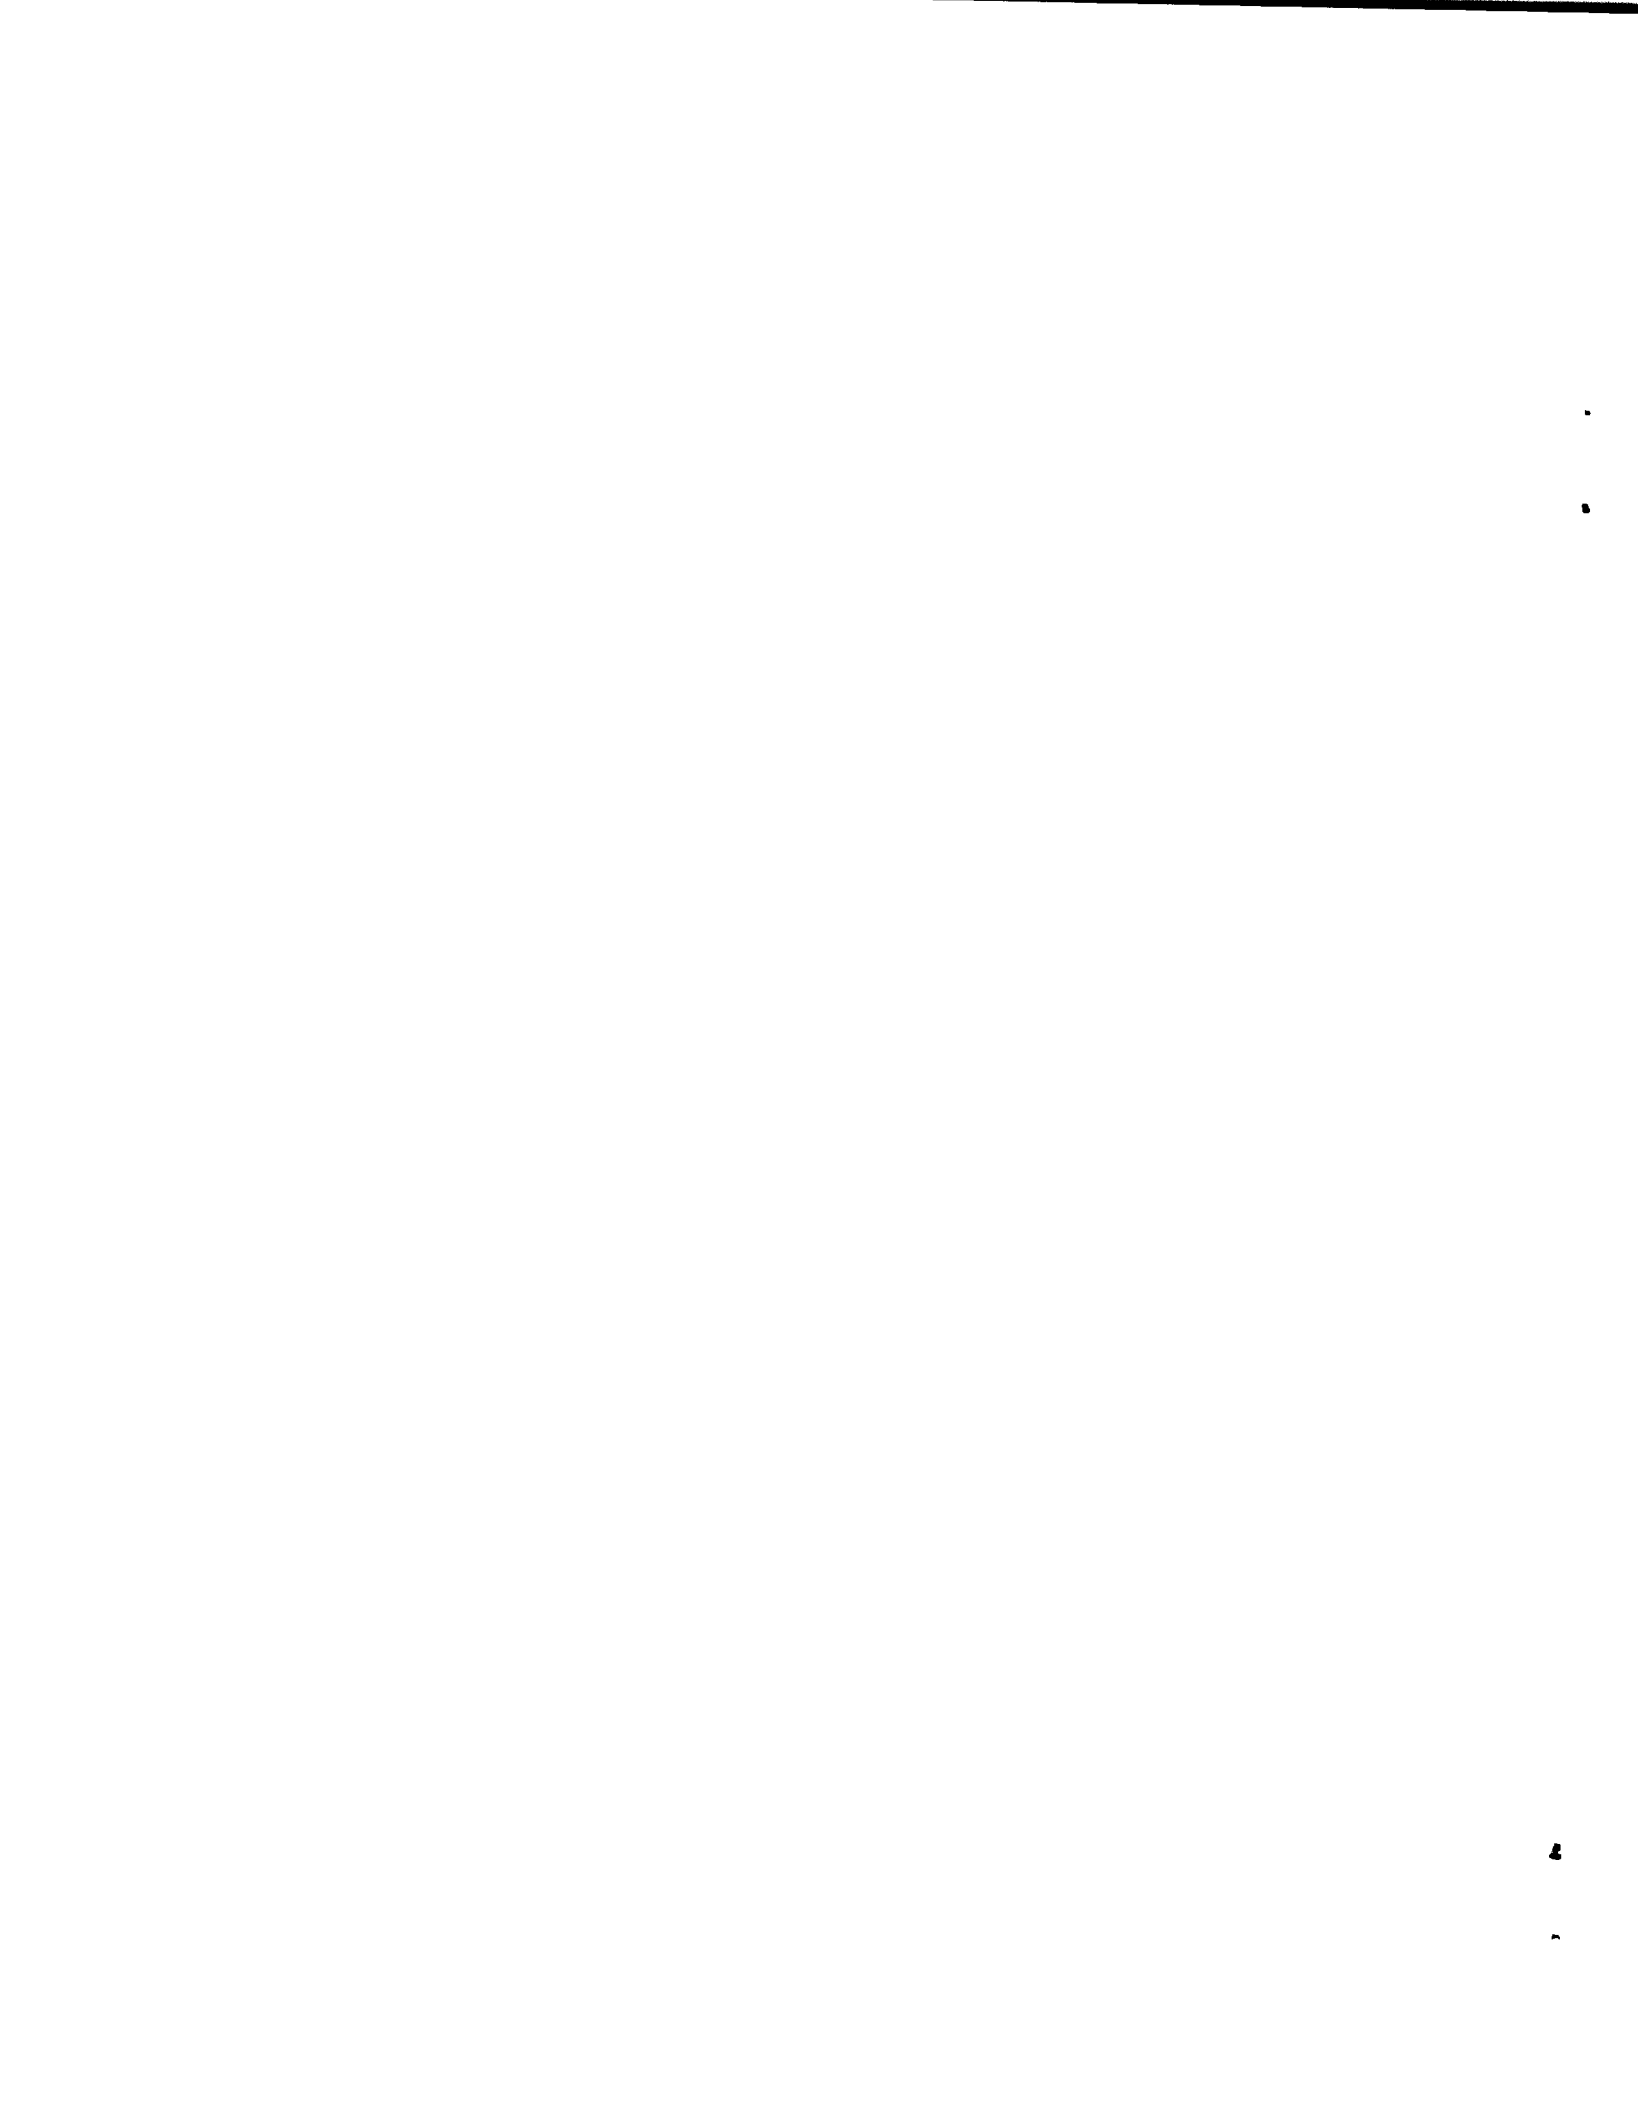

The second section is a title index to the books reviewed. The title index is truncated, with subtitles omitted unless essential to identify the book. Index users are referred to the author's name, or alerted that the item is a title entry. In the case of co-authors or co-editors, only the name of the person under whose name the book is filed is given in the title index.

Entries in the author section are filed under the first author's name. Abbreviations such as "Dr." are filed as if they were spelled out in full, as "Doctor." Numbers are filed as if spelled out. One exception is that of serial items, such as Orbit 1, Orbit 2, etc., which are filed in numerical order.

SCIENCE FICTION BOOK REVIEW INDEX annuals provide the most accurate information possible, but are limited by the degree of accuracy provided in the source journals. When conflicting data is noted, the material is verified, and correct data is provided. Since some journals carry prepublication reviews, there is the possibility of blind entries, resulting from the either from the nonpublication of an announced book, or from a last-minute title change on the part of the publisher. The editor would be grateful for any corrections or additions to this index, to improve the accuracy of future cumulations.

SCIENCE FICTION BOOK REVIEW INDEX Volume 14, 1983, provides access to 3,063 reviews of 1,346 books.

The complete file of **SCIENCE FICTION BOOK REVIEW INDEX**, covering the years 1923 through 1983, provides access to over 40,200 book reviews.

Science Fiction Book Review Index is the established standard source for access to book reviews of science fiction, fantasy, and related books. Each year, over 2,000 book reviews are indexed. The total cumulative file of **Science Fiction Book Review Index** through 1983 provides access to more than 40,000 book reviews. **Science Fiction Book Review Index** is widely recognized as an essential reference tool for science fiction and fantasy.

Volume 11, 1980	ISBN 0-935064-06-0	\$5.50
Volume 12, 1981	ISBN 0-935064-07-9	\$5.50
Volume 13, 1982	ISBN 0-935064-08-7	\$5.50
Volume 14, 1983	ISBN 0-935064-14-1	\$5.50

NOTE: Volumes 1-10 of **Science Fiction Book Review Index** have been cumulated in two volumes by Gale Research Company, Detroit, Michigan. Contact Gale Research to order those volumes. A few copies of the original volumes, or photoreproductions, are available for \$8.00 per volume from SFBRI.

Science Fiction and Fantasy Research Index is the most comprehensive indexing tool for the secondary literature of science fiction and fantasy. The index provides subject access to all aspects of science fiction and fantasy, from the creation of the work by the writer, to literary criticism, and to treatments of the subject in the performing arts. **Science Fiction and Fantasy Research Index** provides access to books, journal articles, essays in books, "fanzine" articles, and newspaper articles. Annual volumes provide access to over 1000 citations per year.

Volume 1	ISBN 0-935064-11-7	\$5.00
Volume 2	ISBN 0-935064-12-5	\$7.50
Volume 3	ISBN 0-935064-13-3	\$7.50
Volume 4	ISBN 0-935064-15-X	\$7.50

The Science Fiction Magazines: A Bibliographical Checklist of Titles and Issues Through 1982 is the most comprehensive checklist of the science fiction magazines ever to appear. It is an analytical bibliography of the magazines, as shown in the issues themselves. In addition, notes have been added from other sources, to clarify points of uncertainty and to provide information not given in the magazines themselves. No other source provides the depth of information nor the accuracy of bibliographic information on the science fiction, fantasy, and related magazines for the time period covered. An appendix, listing the non-English language science fiction and fantasy magazines published around the world, is significant in that it is the first attempt at a comprehensive listing of the science fiction and fantasy magazines world-wide, and the first attempt to establish the bibliographic details of the non-English language science fiction and fantasy magazines of the world.

89 p.

ISBN 0-935064-10-9 \$7.50

The Science Fiction Index: Criticism; An Index to English Language Books and Articles About Science Fiction and Fantasy is an experimental index to the secondary literature of science fiction, fantasy, and related topics, produced using a computer-based indexing program, and published as a microfiche set. The index provides access to over 4,000 citations. Access is provided by author, subject, and keyword-in-context (KWIC) in the title. Author and Keyword access is complete in the microfiche version, but separately assigned subject terms are entered only for about one-half of the citations, due to time constraints with the research project. The index is the most comprehensive tool of its kind for the period through 1979.

6 microfiche and user guide.

ISBN 0-935064-09-5 \$10.00
